

# Children Are Our Future

by Lady Carla Davis, MPH

*Specializing in Nutrition*

Children are among our most important people because they are our future. How a culture or country treats its children and women reveals a lot about its character and future potential.

Tragically, throughout history, children have been used, abused, exploited, indoctrinated, mutilated, experimented on, sacrificed, deprived, neglected, unloved, and removed from their mother at birth or a young age. It is not easy to rectify this kind of ugliness, but for the sake of our children and future, we must bring it to the light and address it!

Least we forget the history of first born son's being sacrificed; female babies being discarded; *A Christmas Carol* by Charles Dickens (England); *Rabbit Proof Fence* by Doris Pilkington (Australia); genitalia mutilation of both baby boys (circumcision) and girls (clitoral removal) by religious zealots; sexual abuses and indoctrinations at schools (global); the death of hundreds of Indian/indigenous children in Canadian boarding schools, to name a few?

Sadly, these abuses, atrocities, and crimes against children are ongoing! However, recent exposés on these diabolical abuses, atrocities, and crimes against children are steps in the right direction.

Plus, since WW2 there has been a strong effort to exploit and socially engineer our children for control and economic gain. In order to accomplish this, the vital role of motherhood has been grossly undervalued, disrespected, and denigrated. Their mode modus operandi is covertly done through Hollywood movies, TV shows, music videos, peer pressure, and social media sites, etc. This, in turn, has enabled greedy, special interest operatives, who have agents imbedded in governments, to take the control of children away from their parents. They don't want children to listen to or respect their parents. To learn more, READ: *Mind Programming* by Eldon Taylor.

Far too many vital decisions are being made by government and medical bureaucrats, under the guise of public health, with major conflicts of interest. These bureaucrats are, in essence, practicing medicine without a license and with a highly unethical 'one-size-fit-all' protocol. Anyone who deviates from their 'narrative' is either censored or labelled as a nutter or anti this or that. Current tyrannical mandates and policies are clearly not in the best interest of children, or anyone for that matter. The controlled, MSM (mainstream media) is used as a powerful method to dictate these policies and run the show and narrative even though they were never elected to govern. The use of 'fear' is also used to coerce parents into compliance with their agenda, which actually has nothing to do with good public health.

Few if any of our government leaders are addressing the issues of children being exploited, experimented on, and used as guinea pigs; asking important questions about the long-term effects of the unethical policies being implemented; or scrutinizing those who are making these life and death decisions about what is best for our children, society, and future generations. For too many have been 'bought' or just go along with the current abuses of power and genocidal assault on our children and humanity.

Those who do question these issues are either censored, defamed, and/or professionally destroyed. The good news is that everything is being exposed like never before. Plus, the current crisis has exposed the ignorance, stupidity, and/or level of corruption of the so called 'experts' like never

before. Statistics clearly indicate that their ‘expertise’ is not very good after all and that their mandates are not working.

One of the best, real experts to learn from is **Dr. Russell Blaylock, MD**, a nationally recognized board-certified neurosurgeon, health practitioner, author, and lecturer. His books, *Blaylock Wellness Report*, and interviews are a wealth of knowledge. Since retiring from his neurosurgical duties he devotes his full attention to nutritional studies and research. Dr. Blaylock has authored three highly educating books on nutrition and wellness:

- *Excitotoxins: The Taste That Kills*
- *Health and Nutrition Secrets That Can Save Your Life*
- *Natural Strategies for Cancer Patients*

Another excellent source of knowledge and information is available at the **Children’s Health Defense**: <https://childrenshealthdefense.org/defender/fewer-cases-autism-allergies-unvaccinated-children/>

How many parents and bureaucrats are aware that studies and statistics reveal there are ***Fewer Cases of Autism, Allergies in Unvaccinated Children***

A study published this month in the Journal of Translational Science found children who were fully or partially vaccinated were diagnosed with autism, severe allergies, gastrointestinal disorders, asthma, recurring ear infections, and ADD/ADHD more often than children who were completely unvaccinated.

In an open letter to the Medicines and Healthcare Products Regulatory Agency, more than 40 doctors, medics and scientists in the UK say children are more vulnerable to the potential long-term effects of COVID vaccines.

### **Disturbing Statistics:**

<https://www.brighteon.com/2aaed9bc-aa22-4da2-bdf8-2b0f2059983a>

- Mandating 72 different shots by age 18
- 54% of children have chronic illness
- 1 in 32 have autism

Vaccine injured children have become an ongoing nightmare for everyone involved!

**How many parents know or even question what is being injected into their children and the long-term consequences? And, that masking children is nothing less than child abuse!**

**Nature always knows best!**

Many informed parents and freedom loving citizens find these abuses of power and against children unacceptable! And, they agree with **Dr. Andrew Wakefield, MD**, that nothing is better or wiser than a mother’s knowledge and instinct for what is best for her child. LISTEN to this interview with RFK, Jr: <https://childrenshealthdefense.org/video/rfk-jr-talks-with-dr-andy-wakefield-about-his-new-movie-1986-the-act/>

For thousands of parents with vaccine-injured children, the 1986 National Childhood Vaccine Injury Act (NCVIA) conjures up sadness, betrayal of trust, disappointment and anger. But what does the rest of the public think? Most people don’t even realize the NCVIA exists! They are still under the rosy misconception that vaccines are safe and effective and that our legislators and public health officials would never do anything that would knowingly hurt America’s children. We need to educate them. That is where **1986: The Act** comes in.

Viewers will learn how “The Act” turned fairness and the US court system on its head. Touted at the time as a helpful, non-adversarial alternative to long, protracted court battles, it actually turned into anything but; where the vaccine-injured linger without help, parents rack up medical bills, and wait years for monetary relief which seldom comes, and government lawyers take home fat pay checks for their efforts against families. This corrupt system ensures that consumers pay the tab and vaccine manufacturers laugh all the way to the bank.

SEE: The importance of **Maternal Intuition** in **Dr. Andrew Wakefield’s** new film:

When you do a search on Dr. Wakefield, you will find a huge amount of defamatory and misleading MSM headlines, articles, and links to try and discredit him. However, his work is brilliant and very accurate, and he has been legally cleared of all wrong doing.

Another champion who deviated from the MSM narrative is **Dr. Simone Gold, MD, JD**, author of *I Do Not Consent*, and Director of **America's Frontline Doctors**.

Additional champions for children that you can learn from are:

In fact, there are even more great champions, organizations, and groups featured in **Masters of Health magazine** (MOH): <http://MastersOfHealthMag.com>, who are empowering parents with knowledge so they can take back control of their children.

A few examples are:

One of the finest programs for children is *The Natural Child Project*, which was developed by the late **Dr. Peter S. Cook, M.B., Ch.B., M.R.C.Psych., FRANZCP, DCH.**, Consultant Child Psychiatrist. His excellent and informative articles can be found on this site:

I highly recommend every parent or parent-to-be and health professional take the time to explore the valuable information and articles on the links above.

Too often we learn about this vital knowledge and wisdom after problems develop or when it is too late. Sadly, there are not many cultures left in today's world where this valuable knowledge is passed on to each new generation from mother to daughter because mothers are forced back to work and grandmothers are often heavily medicated and then confined to nursing homes.

Prevention, prenatal care, and nutrition are not being taught in most medical curriculums, nor in programs for pregnant mothers. Now, it is all about medications and more drugs because the media

gets over 70% of their revenue from the pharmaceutical industry. Allowing them to advertise drugs was a bad mistake!

Government decision makers and parents need to reflect and address:

- WHAT is being done to our children and future generations?
- WHY we are allowing the pharmaceutical industry, which has been sued more than any other industry for fraud and harm, to control and experiment on our children's bodies and lives, and inject them with toxins under the guise of public health? Four of the top pharmaceutical companies are convicted felons!
- WHY are we allowing agriculture industries and water suppliers, councils, and homeowners to use tons of endocrine disruptors, neurotoxins, and cancer causing chemicals on the very food our children eat, the water they drink and bathe in, and the lawns they play on?

The best things parents can do are to:

- Educate themselves on all these issues and about good nutrition
- Reclaim control of their children
- Be environmentally and health conscious
- Create an EMF-FREE and Wifi-FREE environment
- Be aware of what your local, state, and federal governments are doing with your tax money
- Demand an end to chemtrails and other pollutants (e.g., glyphosate, Ag chemicals, PFAS/PFOS, etc.)
- Check your water supply and demand clean, pure water withOUT fluoride and pollutants
- Buy and grow organic food
- Reconnect with Mother Nature

Children need nourishment and nurturing. In addition, children need the BASICS of life on a daily basis to grow and develop well and maintain a strong immune system. For healthy children and future generations to thrive, be sure to provide them with:

- Clean fresh air
- Clean, structured water without additives or toxic chemicals such as fluoride and pollutants
- A good amount of full-spectrum daylight and sunshine withOUT sunscreen or sunglasses
- Quality protein suitable for one's genetics and blood type
- Complex carbohydrates (e.g., fruits, vegetables, etc.) high in fiber
- Essential Fatty Acids (EFAs) in balance, especially omega 3
- Minerals, vitamins, and enzymes
- Lots of Tender Loving Care (TLC)
