

# INFORMED CONSENT & REAL SCIENCE MATTER

by Lady Carla Davis, MPH  
*Specializing in Nutrition*

**“When we don’t take personal responsibility and fail to do our own research to make sure that what we are agreeing to (and we agree to many), is in the best interests of ourselves and our children, we give our power away. We place ourselves in a vulnerable position of being told what to believe and how to act: dictated by the media, government, religion, advertising, the sciences, the medical profession, pharmaceutical companies, education, and big internet companies, etc.”**

Is anyone in government observing or listening to the REAL science or REAL experts without conflicts of interest? Why aren’t politicians and medical officials doing their homework or using common sense? Why all

the censoring?

There is a big difference between corporate scientists, who are paid by industry to achieve a certain result, and REAL scientists, who are independent of industry influence.

Additionally, there is a big difference between the common wild CV (coronavirus) and a GM CV that is produced through Gain of Function (GOF) in biological warfare labs. SEE the *Plandemic* documentary or READ “*Plague of Corruption*” by Judy Mikovits, PhD and Kent Heckenlively, JD. <http://plaguethebook.com/plague-of-corruption/>.

Draconian laws are being passed and tyrannical lockdowns, travel restrictions and mad mask mandates are being implemented that are based on false modelling, fake statistics, a media blitz 24/7, and lies by officials with serious conflicts of interest.

It is diabolic, immoral, and a dereliction of duty for medical officials and politicians to ignore the real science and fact that people who received the flu vaccine may be spreading (shedding) GM CV, or even infecting people with Coved 19? Considering that so many health care workers and seniors in aged care homes are getting ill with Coved 19, this is a logical possibility. Just like what happened in Northern Italy, with the roll-out of an experimental flu vaccine prior to the outbreak of Coved 19.

Adding insult to injury, unreliable statistics are all being fed to the media 24/7 from one source with no evidence and serious conflicts of interest; and neither the media nor government medical officials are fact checking the evidence. Thousands of elderly patients die every day of co-morbidities, but doctors are being told and pressured to document the cause of death as CV19. Hospitals are being financially rewarded to do the same.

**SAME SYMPTOMS**

MIT researcher, Stephanie Seneff, PhD has brought to light that biofuels, which are now commonly used by ships of all kinds, airlines, and many city councils in the EU and elsewhere are heavily contaminated with glyphosate. Exposure to contaminated biofuels, grains, animal feed, dead animals in abattoirs, and/or 5G low-band microwave cell towers produce the same cytokine storm that generates a positive PCR test, and the SAME symptoms as Coved 19. <https://MastersOfHealthMag.com> No wonder glyphosate pollution, 5G roll-out, and gain of function (GOF) events in Wuhan, China created the perfect cytokine storm! Add that to a media blitz 24/7 and the rest is history!

Recent vaccine testing by Moms Across America (MAA) revealed that many vaccines are also contaminated with glyphosate! Could it be that cruise ship and airline passengers, various types of workers, and seniors (with compromised immune systems) receiving numerous flu shots, got very sick from GM CV, radiation poison, glyphosate toxicity, and then were diagnosed as having Coved 19?

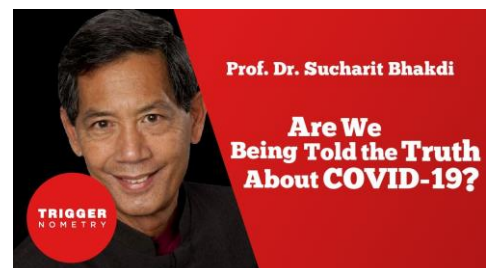

**The more exposure to 5G, EMFs, launched satellites, and towers; the exposure to glyphosate and other pollution in biofuels, food, and vaccine injections, the worse it will get! Dr. Rashid Butter, MD, explains:** <https://www.askdrbuttar.com/join-iadfw-2/>. And, this science matters! WHY aren't the so called tech and medical 'experts' in government, politicians, or the media addressing these issues or the REAL CAUSES? Perhaps, because it would negate their claim and push for a Covid19 vaccine, along with a big financial profit! And, worse, a sinister agenda!

One has to question why billions of our tax dollars are being handed over to an industry that has been sued more than any other industry for fraud and harm. An industry where the top four are convicted felons! Who are these unelected officials making these decisions that are impacting our lives and future generations?

This letter below from "**Stand For Health Freedom**" says it all.

**Informed consent matters. Stand up for your rights! Let your Governor and local officials know that getting the COVID-19 vaccine must be a personal choice.**

As pharmaceutical companies around the world rush to bring a coronavirus vaccine to market, I **STRONGLY** object to being forced to receive the vaccine when it becomes available. In fact, I cannot be vaccinated with my medical condition. No pharmaceutical product or procedure should ever be forced or coerced as a condition of employment or participation in community events, particularly a fast-tracked, experimental vaccine that is free from liability for any harm it might cause — be it a reaction, injury or death.

Most people are unaware that under the PREP Act of 2005, the COVID-19 vaccine will have near blanket immunity. That means if I or a family member is injured or killed, no one will bear responsibility — not the vaccine manufacturer, not the doctor administering the vaccine, nor the government body or employer who decided to mandate the vaccine. It is I and I alone who will be left with the consequences and the medical bills.

That is **WRONG** and exceptionally alarming given the fact there are major safety concerns with the COVID-19 vaccine. Very simply, vaccine manufacturers cannot ensure the long-term safety of any COVID vaccine since the products have had months of clinical experience at best. First-generation pharmaceutical products are also notorious for unintended side effects such as birth defects seen with the drug thalidomide or antibody dependent enhancement as seen with the dengue vaccine. This is a phenomenon where subjects who receive a vaccine for a virus become significantly more ill when they're exposed to that virus in the wild. (In other words, they are **NOT** protected from the vaccine; the vaccine actually **CAUSES** them to become sick or die.) Additionally, the mRNA technology being used in several of the vaccine front-runners is unproven and has never before been approved for commercial use. There is much that is not understood about mRNA vaccines, including what their long term effects might be and how they could change a person's own DNA.

Under current U.S. Supreme Court law, in order to mandate a medical intervention there must be an epidemic that imperils the entire population. According to the CDC's own data, most people have more than a 97 percent chance of surviving COVID-19. In fact, for people under 70, the survivability rate after infection ranges from 99.5 percent to 99.9 percent. Furthermore, the COVID-19 vaccine is not shown to prevent transmission; it's merely shown to lessen symptoms. Given the above — and the fact that there are a variety of preventative measures for coronavirus as well as treatments that have been successfully used by healthcare clinicians around the world — there is simply NO basis upon which to require the vaccine.

When the nation's top vaccine proponents sound alarms about the consequences of a rushed COVID-19 vaccine, that causes me to feel alarmed too. Vaccination is just one approach to dealing with a virus such as COVID-19. It is not THE only approach. It is up to each person to decide how to care for their body based on their own individual judgment and unique physiology. Individuals should not be asked to cast aside their own convictions (be it personal, ethical or religious) to follow the recommendations of public servants who don't even know them — especially when the policies those officials are pushing are influenced by the multibillion-dollar pharmaceutical industry. In other words, they have serious conflicts of interest!

That's right: the pharmaceutical industry stands to make unprecedented profit from the COVID-19 vaccine. I will NOT participate in a mandate that will create enormous revenues for drug companies that bear absolutely NO responsibility for the products they produce — or for my welfare. In fact, some of these companies are convicted serial felons that have been charged with billions in civil and criminal fines for fraud and other misconduct.

Do you want to be forced to take an experimental, risky vaccine from a company with such an appalling track record? I surely don't. And, this is a violation of the Nuremberg Code. Surely you are aware of the horrors of the Holocaust!

Personal choice, not public pressure or coercion, must be the only factor in getting the COVID-19 vaccine. I urge you to make sure that public policy paves the way for me and others like me everywhere to make responsible choices about what precautions we take and the best way to care for our health.

Thank you in advance. **To Take Action go to:**

The [Great Barrington Declaration](#) is a petition started on 4 October, by three scientists: Stanford’s Chief of Neuroradiology, [Scott Atlas](#), and epidemiologists from Oxford and Harvard, along with tens of thousands of epidemiologists and public health scientists, including a Nobel Prize winner. It calls for governments to end the lockdowns and to adopt a policy of focused protection without mandates for those at risk, and others to return to normal.

Denying anyone informed consent is unacceptable in a free society. It also violates the Nuremberg Code that most countries, now in lockdown and implementing tyrannical mandates and travel restrictions, are signatories to. Plus, it makes a mockery of all those wars our loved fought and sacrificed their lives for. Clearly, our health freedom, control of our bodies, parental control, and the future of humanity is being threatened like never before. All the more reason why INFORMED CONSENT and REAL SCIENCE MATTER!
