# VORTEX WATER REVITALIZER

Contact: (+1) 604-990-5462 Toll Free: 888-644-7754

One of the most important benefits of the **Vortex Water Revitalizer** is its effect on one's health and well being. There is a significant improvement in the taste and feel of Revitalized Water, and drinking becomes a much more enjoyable experience.

## Instant absorption

Revitalized Water is made up of micro-clustered water molecules, which allows it to be instantly absorbed by your body. The instant absorption of the water means that Revitalized Water will never sit heavily or slosh around in your stomach, unlike most water, and larger quantities can be consumed at once which results in better hydration.

## Improved bodily functions

Revitalized Water aids in the efficient absorption of nutrients by body cells and the excretion of toxins from them.

## Elimination of toxins and bacteria

The Vortex Water Revitalizer has been proven to eliminate or significantly reduce bacteria, chlorine, nitrates, and other toxins from water, making it safer to drink and less harmful to the body.

## In the shower

Revitalized Water is naturally softened and the quality of the water is significantly improved, making it an absolute pleasure to shower in. Softer water leaves your skin feeling cleaner, softer and renewed. Hair is rehydrated and left healthier, softer and shinier. Dryness and/or irritation of the skin or scalp will be reduced significantly or eliminated.

Improved water quality also allows you to use less soap, shampoo and conditioner.

## pH balance

Revitalized Water is brought to a natural pH balance. The ideal pH level of water is 7.0; pH of Revitalized Water usually falls between 6.8 and 7.2. Water will be brought to a natural pH balance whether is it too alkaline or too acidic. Drinking water with a natural pH balance will also bring about a more natural pH balance to your body.
