

Children Are Our Future

by Lady Carla Davis, MPH

Specializing in Nutrition
GEP Minister for Environment

Children are among our most important people because they are our future. How a culture or country treats its children and women reveals much about its character and future potential.

Tragically, throughout history, children have been used, abused, exploited, mutilated, indoctrinated, experimented on, sacrificed, deprived, neglected, unloved, and removed from their mothers at birth or a young age. It is not easy to rectify these kinds of abuses. But, for the sake of our children and future generations, we must bring this to light and address these issues.

Lest we forget the history of firstborn sons sacrificed; female babies discarded; *A Christmas Carol* by Charles Dickens (England); *Rabbit Proof Fence* by Doris Pilkington (Australia); genitalia mutilation of both baby boys (circumcision) and girls (clitoral removal) by religious zealots; sexual abuses and indoctrinations at schools (global); the death of hundreds of Indian/indigenous children in Canadian boarding schools, to name a few?

Plus, post WW2, there has been a significant effort to exploit and socially engineer our children for control and economic gain. In the process, the vital role of motherhood has been grossly undervalued, disrespected, and denigrated. Their modus operandi is done covertly through Hollywood movies, TV, music videos, peer pressure, social media sites, etc. This, in turn, has enabled greedy, special interest operatives, who have agents embedded in governments, to take control of children away from their parents. They don't want children to listen to or respect their parents. To learn more, READ: *Mind Programming* by Eldon Taylor.

<http://www.eldontaylor.com/books/mindprogramming/mindprogramming.html>

Far too many vital decisions are being made by government and medical bureaucrats, with conflicts of interest, under the guise of public health. These bureaucrats are, in essence, practicing medicine without a license and with a highly unethical 'one-size-fit-all' protocol. Those who deviate from the 'narrative' are either censored or labeled as nutters or anti-this or anti-that people. Current tyrannical mandates and policies are not in the best interest of children, nor anyone, for that matter. The controlled MSM (mainstream media) is used as a powerful method to dictate these policies and run the show and narrative even though they were never elected to govern. 'Fear' is also used to coerce parents into compliance with the agenda, which has nothing to do with good public health.

Few, if any, of our government leaders are addressing the issue of exploited children who are experimented on and used as guinea pigs. Nor do they ask vital questions about the long-term effects of the unethical policies implemented or scrutinize those making life-and-death decisions about what is best for our children, society, and

future generations. Far too many have been 'bought' or just go along with the current abuses of power and genocidal assault on our children and humanity.

Sadly, these abuses, atrocities, and crimes against children are ongoing! Those who question these issues are censored in the media, defamed, or professionally destroyed.

The good news is that everything is being exposed like never before. Exposés on these diabolical abuses, atrocities, and crimes against children are good examples. Plus, the current crisis exposes the ignorance, stupidity, and corruption among the 'so-called experts.' Statistics indicate that their 'expertise' is not very good, and their mandates are not working.

One of the best experts to learn from is **Dr. Russell Blaylock, MD**, a nationally recognized board-certified neurosurgeon, health practitioner, author, and lecturer. Since retiring from his neurosurgical duties, he now devotes most of his time to nutritional studies and research. His books, *Blaylock Wellness Report*, and interviews are a wealth of knowledge. Dr. Blaylock has authored three highly educating books on nutrition and wellness:

- ***Excitotoxins: The Taste That Kills***
- ***Health and Nutrition Secrets That Can Save Your Life***
- ***Natural Strategies for Cancer Patients***

Other excellent sources of knowledge and information are the [Children's Health Defense](#) and [CHD TV](#).

How many parents and bureaucrats know that studies and statistics reveal [Fewer Cases of Autism and Allergies in Unvaccinated Children?](#)

A study published this month in the Journal of Translational Science found children fully or partially vaccinated were diagnosed with autism, severe allergies, gastrointestinal disorders, asthma, recurring ear infections, and ADD/ADHD more often than unvaccinated children.

40+ Doctors Tell UK Drug Regulators: Vaccinating Kids for COVID is 'Irresponsible, Unethical, and Unnecessary!'

In an open letter to the Medicines and Healthcare Products Regulatory Agency, more than 40 doctors, medics, and scientists in the UK say children are more vulnerable to the potential long-term effects of COVID vaccines.

Latest CDC VAERS Data Show Reported Injuries Surpass 7,000 in Ages 12 to 17 Following COVID Vaccines

[Why Are Parents Enrolling Their Kids in Experimental COVID Vaccine Trials?](#)

On Oct. 13, Pfizer announced that Cincinnati **Children's** Hospital would begin enrolling **children** in COVID-19 vaccine clinical trials, making Pfizer the first American company to test an experimental coronavirus vaccine...11/19/21

Federal Law Prohibits Mandates of Emergency Use COVID Vaccines, Tests, Masks — 3 Resources You Can Use to Inform Your School or Employer

...authorized for Emergency Use Authorization status (EUA) violates federal law as detailed in the following legal notifications. All COVID vaccines, COVID PCR and antigen tests, and **masks** are merely EUA-authorized,...5/18/21

Dr. Christiane Northrup, MD, Author of *Women's Bodies, Women's Wisdom*, said that early childhood diseases prime the body's immune system naturally, so they will quickly recover when exposed to pathogens later in life.

Disturbing Statistics:

- Mandating 72 different shots by age 18
- 54% of children have a chronic illness
- 1 in 32 has autism

Vaccine-injured children have become an ongoing nightmare for everyone involved!

How many parents even question the ingredients of the shots injected into their children and their long-term consequences or know that masking children is nothing less than child abuse?

LEARN about the terrain theory VS the germ theory. It will change the way you think.
The True Nature of Viruses - Jeff Green 41:43 *Viral Misconceptions Transcription*
The Age of Deception -Viruses are not contagious - Jeff Green
The Viral Misconception, in parts - Alana Green - A BRILLIANT Lesson in Virology

NOTE: Early on, polio victims were heavily sprayed with or exposed to DDT before being paralyzed and diagnosed with polio. Now, in many parts of the world, DNA tests confirm that the polio vaccine is causing polio.

Nature always knows best!

Many informed parents and freedom-loving citizens find these abuses of power and assaults against children unacceptable! Also, they agree with **Dr. Andrew Wakefield, MD**, that nothing is better or wiser than a mother's knowledge and instinct for what is best for her child. LISTEN to this interview with RFK, Jr: <https://childrenshealthdefense.org/video/rfk-jr-talks-with-dr-andy-wakefield-about-his-new-movie-1986-the-act/>

For thousands of parents with vaccine-injured children, the 1986 National Childhood Vaccine Injury Act (NCVIA) conjures up sadness, betrayal of trust, disappointment, and anger. The rest of the public doesn't even realize the NCVIA exists! They are still under the rosy misconception that vaccines are safe and effective and that our legislators and public health officials would never do anything that would knowingly harm America's children. These people need an education about the facts.

Through the film **1986: The Act**, viewers will learn how "The Act" turned fairness and the US court system on its head. Touted at the time as a helpful, non-adversarial alternative to long, protracted court battles, it turned into anything but. In reality, the vaccine-injured linger without help, parents rack up medical bills and wait years for monetary relief, which seldom comes, and government lawyers take home fat paychecks for their efforts against families. This corrupt system ensures consumers pay the tab, and vaccine manufacturers laugh all-the-way to the bank.

SEE The importance of **Maternal Intuition** in **Dr. Andrew Wakefield's** new film *1986: The ACT*. It is also available through the [stream on demand](#) and <https://www.vaxxed2.com/>.

When you search for Dr. Wakefield, you will find defamatory and misleading MSM headlines, articles, and links to try and discredit him. However, his work is brilliant and very accurate. Plus, he has been cleared legally of all wrongdoing.

Another champion who deviated from the MSM narrative is **Dr. Simone Gold, MD, JD**, author of *I Do Not Consent*, and Director of America's Frontline Doctors.

Below are other champions, organizations, environmental activists, and groups to learn from. Most are featured in ***Masters of Health Magazine*** (MOH) to help empower parents with the knowledge to take back control of their children.

One of the finest programs for children is *The Natural Child Project*, developed by the
late **Dr. Peter S. Cook, M.B., Ch.B., M.R.C.Psych., FRANZCP, DCH.**, Consultant Child
Psychiatrist. His excellent and informative articles can be found on this site: [https://
www.naturalchild.org/articles/peter_cook/](https://www.naturalchild.org/articles/peter_cook/)

I highly recommend every parent or parent-to-be and health professional take the
time to explore the valuable information and articles on the links above.

Too often, we learn about this vital knowledge and wisdom after problems develop or
when it is too late. Plus, the culture of passing valuable knowledge to each new
generation, from grandmother to mother to daughter, is lost when mothers return to
work and grandmothers are ignored, heavily medicated, and then confined to nursing
homes.

Prevention, prenatal care, and nutrition are not in most medical curriculums, nor
programs for pregnant mothers. It is all about medications (drugs) because the media
gets over 70% of its revenue from the pharmaceutical industry. Approval of drug
advertisements was a bad mistake that needs to be corrected.

Government decision-makers and parents need to reflect on and deal with

- The HARM done to our children and future generations.
- WHY they allow the pharmaceutical industry, which has been sued more than any other industry for fraud and harm, to control and experiment on children and inject them with toxins under the guise of public health. (Four of the top pharmaceutical companies are convicted felons!)
- WHY they allow agriculture industries and water suppliers, councils, and homeowners to dispose tons of endocrine disruptors, neurotoxins, and cancer-causing chemicals on the food our children eat, the water they drink and bathe in, and the lawns they play on.

The best things parents can do are to

- Educate themselves on all these issues and about good nutrition.
- Reclaim control of their children.
- Be environmentally and health conscious.
- Create an EMF-FREE and Wifi-FREE environment.
- Be aware of what local, state, and federal governments do with your tax money.
- Demand an end to weather-geoengineering, chemtrails, and other pollutants (e.g., glyphosate, Ag chemicals, PFAS/PFOS, etc.).
- Check water supply and demand clean, pure water withOUT fluoride and pollutants.
- Buy and grow organic food.
- Reconnect with Mother Nature.

Children need nourishment and nurturing. In addition, children need the BASICS of life daily to grow and develop well and maintain a strong immune system. For healthy children and future generations to thrive, nourish them with

- Clean, fresh air
- Clean, structured water without additives or toxic chemicals such as fluoride and pollutants
- A good amount of full-spectrum daylight and sunshine withOUT sunscreen or sunglasses
- Quality protein suitable for one's genetics and blood type
- Complex carbohydrates (e.g., organic fruits, vegetables, etc.) high in fiber
- Essential Fatty Acids (EFAs) in balance and unrefined, especially omega 3
- Minerals, vitamins, and enzymes
- Lots of Tender Loving Care (TLC)
